Name Of Organization
Their address

Dear Sir / Madam

I am currently a student in Computer Engineering and Software Systems at Unversity of ..... in Cairo. In parallel, I have completed the Front End Developer learning path by OpenClassrooms, an online school. Given my strong interest in Blockchain, I would appreciate your consideration for this job.

For 2 years I worked on Etherum blockchain started by Etherum white paper to create fully decentralized applications for startups, through hackathons and open-source contributions. My responsibilities were to support the development and maintenance of decentralized apps, read new white papers and blueprints, discover new tools and new architectures, and contribute with open source community to enhance the blockchain community.

I would like to further develop my skills in

I appreciate the time you took to review my credentials and my experience.
Please do not hesitate to contact me if you require any further information.

Sincerely,
(Sender/your name)
